- Sewing to a good understanding (5+ years)

Hobbies

- Crochet and sticker making for my small business
- Sword Arts training (German Longsword)
- Artwork including portrait drawing and painting.
- Baking
- Sewing
- Photography

About Me

I am a passionate maker that enjoys turning ideas and creating something that brings it to life both inside and outside of my studies.

While studying Prop Making, I have gained valuable skills and knowledge of the intricacies and detail that go into creating models sculpts or props. The course structure has helped to solidify my ability to manage deadlines as well as understanding the expectations within the industry, and as a result I am able to work well under pressure.

Along side my studies I have been able to effectively manage my time between my small crafting business and assignments. I am hopeful to work within the creative industry whether it is a large scale production or a local theatre as i believe I can be a valuable asset to a production team.
